

Accessories to Expand and Enhance Your Quilting Experience

- **1/4" Presser Foot** (for 120V machine)
7mm Presser Foot (for 220-240V machine)
Creates even 1/4 inch or 7mm seams for perfect piecing.

- **Even Feed Foot**
Powerfully feeds multiple fabric layers from both top and bottom without shifting.

- **Quilt Guide for Even Feed Foot**
Measures rows for evenly spaced quilt lines.

- **Quilting Foot Front Open Toe**
Allows for more visibility during free motion quilting.

- **1/5" Quilting Foot**
Use for free motion quilting to glide smoothly and evenly over fabric layers.

- **1/4" Quilting Foot**
Create equally spaced free motion quilting lines, perfect for echo quilting.

- **Drop Feed**
The feed dog may be raised or lowered by simply adjusting the switch. Lowering the feed dog allows you to free motion quilt in any direction with precision and ease.

Larger Work Area

With a large work area of up to 23 inches (with auxiliary table attached), the TL-2200QVP Mini can handle large quilts with ease.

QVP Quilt Virtuoso Pro

TL-2200QVP Mini *Imagine Design* Quilt

TL-2200QVP Mini is a single needle, lock-stitch, portable sewing machine, constructed of aluminum die-casting to ensure industrial-quality sewing.

Functions for Sewing Quilts with Ease

- **Maximum Sewing Speed Control**
Easily control your sewing speed from 200 to 1,500 SPM with the adjustable slide. This will give you complete control of your sewing speed in both piecing and free motion quilting.

- **Foot Controller with Thread Trimming Function**
It is possible to automatically trim both needle and bobbin threads by pressing the heel side of foot controller.

The thread trimming function can be disabled by attaching a Foot Switch Stepper to the controller.

- **Automatic Thread Trimmer**
With your automatic thread trimmer you can trim both the needle and bobbin threads simultaneously as desired. Enjoy the same thread trimming mechanism as many of our Juki Industrial Sewing Machines.

- **Automatic Needle Threader**
The automatic needle threader quickly and easily threads the needle without eyestrain, allowing you to change thread colors as often as you wish.

- **Needle Up/Down Control**
Change the needle position to up or down as desired by simply pressing the up/down needle button. When the button is pressed continuously, the machine will sew stitch by stitch.

- **Knee Lifter Lever**
The knee lifter lever allows you to lift/over the presser foot without using your hands. The presser foot can be raised as high as 12mm.

Functions for Perfect Stitch Quality

- **Sub Tension Unit**
The Sub Tension Unit ensures thread feeling to the needle is smooth, even and twist free, no matter how thick your thread is. It also keeps the thread from quivering when sewing at high speeds and provides accurate, fine tuned thread tension.

- **Thread Tension Scale**
The machine also has the thread tension scale which allows you to adjust the tension according to the thread and material to be used.

- **Presser Foot Pressure Adjustment**
Presser foot pressure may be adjusted to accommodate different fabric thickness by turning the regulator dial located on the top of the machine.

- **Horizontal-axis Full-rotary Hook**
Create perfectly balanced stitches for beautiful seams. Bobbin thread tension is also adjustable.
